Data Visualization · Human-AI Interaction · XR & Wearables

Education

Seoul National University *Sep 2025 – Present*
M.S. in Artificial Intelligence Seoul, South Korea
- Advisor: Prof. Jinwook Seo GPA: 4.0/4.3

Chung-Ang University *Mar 2019 – Aug 2023*
B.S. in Engineering, School of Computer Art Seoul, South Korea
- Summa Cum Laude GPA: 4.32/4.5

Research Experience

Harvard University, Visual Computing Group *Aug 2026 – Present*
Visiting Researcher, Advisor: Prof. Hanspeter Pfister Cambridge, MA, USA
- Developed MyMuse to support post-visit artwork inquiry and reflection, combining retrieval-augmented LLM Q&A with interactive narrative visualization of visitor records [U1]
- Contributing to research on how robot assistants revise or preserve act/ask/wait decisions during collaboration using spoken requests, interaction history, and egocentric video from smart glasses [U2]

Seoul National University, Human-Computer Interaction Lab *Sep 2025 – Present*
Graduate Researcher, Advisor: Prof. Jinwook Seo Seoul, South Korea
- Proposed the research direction for Beyond the Feed and contributed to coordinated views linking recommendation distributions and interaction history to support exploration and steering [U3]
- Developed a framework and Swift prototypes for Apple Vision Pro, embedding visualizations on physical object surfaces to guide data exploration through container geometry [P1]
- Built four coordinated views comparing artist–era audio profiles via cosine similarity and contrast [P2]

Research Intern, Advisor: Prof. Jinwook Seo *Dec 2024 – Aug 2025*
- Developed and evaluated rank-correlation and clustering-based metric selection to reduce bias in dimensionality-reduction evaluation across 96 datasets [C1]

Chung-Ang University, Computer Graphics Lab *Sep 2019 – Feb 2020*
Undergraduate Researcher, Advisor: Prof. Sanghyun Seo Seoul, South Korea
- Built a semi-automated pipeline to reuse images from 3D reconstruction datasets for Faster R-CNN training through bounding-box propagation and annotation-aware augmentation [C2]

Publications

Conference Papers

[C1] **Jiyeon Bae**, Hyeon Jeon, and Jinwook Seo. **Metric Design != Metric Behavior: Improving Metric Selection for the Unbiased Evaluation of Dimensionality Reduction**. IEEE Visualization Conference (IEEE VIS), Short Paper. 2025. [Paper]

[C2] Nahyuk Lee, Hannah Noh, **Jiyeon Bae**, Kyunghun Nam, Sanghyun Seo, and Kyunghyun Yoon. **Development of 3D Reconstruction and Object Recognition Model Based on Single Dataset**. Proceedings of the Korea Multimedia Society Summer Conference, Vol. 23, No. 1. 2020. (in Korean)

Conference Posters

[P1] **Jiyeon Bae**, Mingyu An, Jeongin Park, Seokweon Jung, Kiroong Choe, and Jinwook Seo. **Physical Containers as Framing Conditions for Visualization in Augmented Reality**. IEEE Pacific Visualization Conference (PacificVis). 2026. [Paper] 🏆 **Best Poster Award.**

[P2] **Jiyeon Bae** and Jinwook Seo. **A Multi-Level Visual Analytics Approach to Artist–Era Alignment in Popular Music**. IEEE Pacific Visualization Conference (PacificVis). 2026. [Paper]

Under Review

[U1] **Jiyeon Bae**, Chunggi Lee, Jinwook Seo, and Hanspeter Pfister. **MyMuse: A Personal Museum for Continued Inquiry and Reflection**. Under review at ACM CHI 2027.

[U2] Chunggi Lee, Florian Zogaj, **Jiyeon Bae**, and Hanspeter Pfister. **EgoMate: Egocentric Human-Robot**

Collaboration for Spoken Requests in Changing Shared Workspaces. Under review at ACM IMWUT (UbiComp).

[U3] Sean Kim, Namhee Kim, **Jiyeon Bae**, Min Hyeong Kim, and Jinwook Seo. **Beyond the Feed: Trajectory-Level Interaction for Understanding and Steering Recommendations Under Short-Term Sensitivity**. Under review at ACM CHI 2027.

Honors and Awards

Human Resource Development Program for Industrial Innovation, KIAT — *Aug 2026 – Jan 2027*
Funding via SNU R&DB Foundation for a research visit to Harvard University (USD 21,112 plus round-trip airfare).

Best Poster Award, IEEE Pacific Visualization Conference (PacificVis) 2026 [P1] — *Apr 2026*

AI Graduate School Scholarship, Seoul National University — *Fall 2025, Spring 2026*

Academic Excellence Scholarship, Seoul National University — *Fall 2025*

Top of the Class Scholarship, Chung-Ang University — *Fall 2022*

Academic Excellence Scholarship, Chung-Ang University — *Spring 2020, Spring 2021*

Talks and Presentations

IEEE Pacific Visualization Conference (PacificVis) 2026 — *Apr 2026*
Two poster presentations [P1] [P2] — Sydney, Australia

IEEE Visualization Conference (IEEE VIS) 2025 — *Nov 2025*
Oral presentation [C1], Short Papers: Visualization with/for/in AI — Vienna, Austria

SNU–CMU HCAI Research Exchange Workshop 2025 — *Oct 2025*
Poster presentation — Seoul National University, Seoul, South Korea

3rd Korea Visualization Workshop (K-VIS 2025) — *Jul 2025*
Oral presentation [C1] — POSTECH, Pohang, South Korea

Industry Experience

E4NET Co., Ltd. — *Jul 2022 – Aug 2022*
Intern, Cherry (blockchain-based donation platform)

- Conducted a usability evaluation of the Cherry app, identifying interaction pain points and proposing UI/UX design improvements

Selected Projects

RoleCast: Multi-Agent Feedback for Broadcast Planning — *Apr 2026 – Jun 2026*

- Built a multi-agent system for checklist-based critique and conflict mediation across broadcast production roles
- Grounded feedback in MBC data via Qdrant dense/BM25 retrieval and evaluated it with 5 broadcasting experts

YouTrap: You're Trapped in the YouTube Filter Bubble — *Oct 2025 – Dec 2025*

- Designed a topic visualization system to support awareness of filter bubbles in YouTube recommendations
- Chrome extension built with React/TypeScript and D3 and evaluated in a 12-participant study

Sisyphus: Interactive Media Installation — *May 2022 – Jul 2022*

- Created Maya animations exploring repetitive daily routines and shown to 200+ visitors
- Built a motorized projection-mapping wheel for a Kinect/Unity installation responsive to viewer position

Motion Stimulus Camera — *Oct 2019 – Dec 2019*

- Built a Raspberry Pi camera with physical controls, an LCD, and a film-grain effect
- Designed and 3D-printed its enclosure; ranked first in course project evaluations

Real-Time Facial Motion Capture and AR Avatar — *Oct 2019*

- Integrated a Fuse/Mixamo avatar with real-time facial tracking in Unity AR
- Customized eye joints, skinning, and mouth/tongue blendshapes in Maya

Service

Volunteer Programming Mentoring — *Jun 2019 – Aug 2023*
Daegu Jeil Community Child Center — Daegu, South Korea

Mathematics Tutoring — *Spring 2022, Fall 2022*
Korea Student Aid Foundation Tutoring Program, Gunpo Singi Elementary School — Remote
